

**ABOUT ME:**

I have been born in S. João da Madeira Portugal in the year of 1967, and I have a Ph.D. and M.Sc. degrees in Applied Physics (Optics and Electronics) by the Faculty of Sciences of University of Oporto, Portugal, and by the School of Physical Sciences of University of Kent at Canterbury, Kent, UK.

I am Associate Professor at the University Fernando Pessoa, Porto, Portugal, since 1996, being temporarily on leave from the University duties during 2001 and 2003, to co-found with three colleagues a start-up company on advanced fibre optic technologies, Multiwave Networks Inc. at USA (now called Multiwave Photonics S.A. owned by other investors).

My actual scientific interests are concentrated in the following topics:

- Fibre Optic Sensors and Optical Microdevices
- Biomedical Optics and Optical Coherence Tomography
- Fibre Lasers for Medical Applications
- Optoelectronic Monitoring Systems
- Wireless Sensors and Embedded Systems
- High Technology Start-ups

Prof. Doutor António Lobo Ribeiro

Docente da Faculdade de Ciências da Saúde

Habilitação Literária

Licenciado em Física (ramo de Óptica e Electrónica) pela Universidade do Porto obtido em 1990-07-26

Mestre em Física (Óptica Aplicada) pela Universidade of Kent at Canterbury, United Kingdom obtido em 1992-06-30

Doutor em Física Aplicada (Óptica e Electrónica) pela Universidade do Porto obtido em 1997-03-04
